

**FRICITION REDUCERS FOR FLUIDS COMPRISING CARBON  
DIOXIDE AND METHODS OF USING FRICTION REDUCERS IN  
FLUIDS COMPRISING CARBON DIOXIDE**

**ABSTRACT**

[0025] Reduced friction fluids comprising an aqueous liquid, carbon dioxide, and a polymer comprising acrylamide and an acrylamide copolymer derivative. And methods of treating a subterranean formation comprising the steps of providing a reduced friction fluid comprising an aqueous liquid, carbon dioxide, and a polymer comprising acrylamide and an acrylamide copolymer derivative; and, introducing the reduced friction fluid to a subterranean formation.
